PROFILE

Second-year B.Tech Computer Science student aspiring to be an AI/ML Engineer, skilled in frontend development, Python, C++ and DSA, with daily DSA and LeetCode practice. Operations Co-Lead at the Centre for GRI, building projects with React.

EDUCATION

JAIN (Deemed-to-be University) *Bengaluru, India*

Bachelor of Technology in Computer Science Engineering (Second Year) 2025 – 2029

- SGPA: 7.5 (Semester 1), 8.0 (Semester 2)
- Relevant coursework: Data Structures & Algorithms, Programming Fundamentals, Web Development

SKILLS

Languages: Python, C++, Java (fundamentals), JavaScript, SQL (fundamentals)

Python & Data: NumPy, Pandas, SQLite3, Matplotlib, Seaborn

Frontend: HTML, CSS, JavaScript, React, Vite, Bootstrap, React Router, Responsive Web Design

Tools & Core: Git, GitHub, VS Code, Jupyter Notebook; Data Structures & Algorithms, Problem Solving

CERTIFICATIONS

- AWS Solutions Architecture Job Simulation
- Microsoft Copilot AI Suite
- Machine Learning Fundamentals; Cybersecurity Fundamentals
- Learning Graph Neural Networks – LinkedIn Learning – Sep'26
- Artificial Intelligence Foundations: Machine Learning – LinkedIn Learning – Sep'26
- Computer Architecture Essentials – LinkedIn Learning – Sep'26
- Nestlé E-learning 2026 | Resilience – Nesternship Programme (Nestlé Needs YOUth)

EXPERIENCE

Centre for Grassroots Research and Innovations (GRI) *Bengaluru, India*

Operations Co-Lead Present

- Co-lead operations and coordinate student team members to plan and execute the Centre's activities and events.
- Build leadership, communication, teamwork and event-management skills while executing activities.

PROJECTS

MediKiosk GitHub

- Healthcare kiosk with patient identification, medical-history interaction and document upload/preview.
- Built with React, Vite, Bootstrap and React Router.

Personal Portfolio Website GitHub

- React and Vite portfolio showcasing my skills, projects, certificates and achievements.

DSA Practice – GeeksforGeeks 60-Day Challenge GitHub

- Structured DSA practice on arrays, strings, searching, sorting, stacks, queues, recursion and two-pointer techniques.

ACHIEVEMENTS

- Solving one DSA problem daily, including the GeeksforGeeks 60-Day Challenge – GeeksforGeeks
- Solving one LeetCode problem daily – LeetCode
